

SEWV Support Knowledge Base — 03: Products, Pricing & Current Promos

Source priority: The [SEWV Promo information](#) FAQ docs (per-product FAQ sheets, most recently updated July 2026) are the **authoritative, current** source for pricing, refund terms, and product structure. Older tutorial videos (e.g. "Courses overview," which describes separate Beginner/Intermediate/Advanced level courses) describe a **previous** product structure and are now partially outdated — flagged inline below. When in doubt, trust this file over [01-email-response-playbook.md](#)'s older assumptions about level courses.

 **Promo dates below are snapshots from specific past promo windows** (pulled from the FAQ docs as written). Always sanity-check current promo end-dates/prices against the live sales page or the most recently modified FAQ doc before quoting a price to a student — these rotate roughly monthly per the promo calendar (see Procedure/notes at bottom).

Core product: The Fearless Fluency Club (FFC)

As of July 1, 2024 (per FAQ_FFC 3.0), separate one-time Level Courses (Beginner/Intermediate/Advanced) are NO LONGER SOLD. If a student asks about a level course specifically, redirect them: the Monthly Membership now includes access to all 248 FFC lessons (which includes what used to be the separate beginner/intermediate/advanced content).

FFC is now offered in **three payment formats**, all granting access to the same 248-lesson library:

1. Monthly Membership ("FFC 3.0")

- Sales page: <http://www.speakenglishwithvanessa.com/fluency>
- **New-student checkout link** (triggers \$5 first month):
https://speak-english-with-vanessa.teachable.com/purchase?product_id=3505735&couponcode=30OFF
- **Full-price checkout link** (existing/rejoining customers — no coupon, charges \$35):
https://speak-english-with-vanessa.teachable.com/purchase?product_id=3505735
- The [couponcode=30OFF](#) is the standing, consistent new-student rate — not tied to a rotating promo, no need to re-verify it before sending.
- **\$35/month**, first month **\$5** — this is the consistent, standing rate on the main checkout page (/fluency), the one to use/quote for support purposes. No need to check coupon codes for this — it's always \$5 on that page.

- Edge case, **not important for support/admin purposes**: a **\$1** offer exists, but only appears on the free-PDF thank-you page and within the welcome email sequence, for students who haven't yet completed onboarding. Once a student has gone through the welcome sequence, they won't see it again (a student could theoretically re-trigger it by downloading a different opt-in PDF, but this isn't worth worrying about). There's also a separate coupon used for an end-of-month offer — also not relevant for admin/support purposes. **For any email support context, just use \$5 and the /fluency page.**
- Includes access to all 248 lessons + private "#1 English Community" group + daily English lessons via email.
-  **PayPal cannot be used to pay for this.** It's a subscription/recurring payment, and PayPal doesn't support that here — a student wanting to use PayPal needs a one-time-payment product instead (see playbook entry #16's PayPal exception).
- **Only format to recommend by default** when a student asks what course to take — don't volunteer Yearly/Lifetime/Challenges/Vanessa AI unless specifically asked. See playbook entry #16.
- Refund: standard 30-day, no-questions-asked in practice even after 30 days. A **refund** removes access **immediately**. A plain **cancellation** (no refund requested) keeps access through the end of the current paid period — access is not lifetime/guaranteed the way one-time-purchase products (Challenges, Lifetime) are.

2. Yearly Membership ("FFC Yearly")

Not a default recommendation — only mention this to a new/prospective lead if they specifically ask whether a yearly option exists.

- Normally **\$420/year**; promo pricing has been **\$230** (~\$190 off) in recent cycles.
- One-time-per-year payment, full access to all 248 lessons for the year.
-  **PayPal cannot be used to pay for this either** — same as Monthly Membership, it's a recurring/subscription-style payment and PayPal doesn't support it here.
- **Two ways Monthly Membership students encounter the Yearly upgrade offer, not just during a promo window:**
 1. **Upsell emails** sent automatically within the student's **first month** of joining Monthly Membership.
 2. **Ongoing PS mentions** in the regular daily course emails Monthly Membership students already receive — so a monthly student can realistically upgrade to Yearly at **any time**, not only during the twice-a-year promo periods.
- **Twice-a-year promotions:** these are aimed at the **general public** (not just existing Monthly members) and run as **two parallel campaigns** at the same time:
 - **Public campaign** — full pitch, explains what's included in the program (since these recipients don't already know).
 - **Existing-Monthly-member campaign** — doesn't re-explain the program (they already know it), instead leads with the **"5 months free"** angle (i.e., paying yearly works out to ~5 months cheaper than paying monthly all year).

- Upgrade path from Monthly: existing \$35/mo members can upgrade to yearly at the promo rate (effectively "5 months free" vs. paying monthly all year) — this is the messaging angle to use if a Monthly Membership student specifically asks about upgrading.
-  **Cancellation is different from Monthly:** canceling a yearly plan does **not** cut off access immediately — they keep access through the end of the paid year. **Do not simply delete their subscription the way you would for Monthly** — show them how to self-cancel via "Manage Subscriptions" in their Teachable account instead, so they don't lose early access by mistake.
- Refund: standard 30-day guarantee, no-hassle.

3. Lifetime Membership ("FFC Lifetime")

"Lifetime" is the current term — always use this. "Unlimited" is an **outdated** name for this exact same plan; it's now uncommon, but an old student might still refer to it that way — recognize it as the same product, but don't use "Unlimited" in outgoing replies. **Checkout link:** <http://www.speakenglishwithvanessa.com/lifetime-promo>

- Normally **\$1,000** (this is the correct figure — \$997 seen in some older docs is inaccurate); promo pricing has been **\$450** (~\$550 off), sometimes with a **4-month payment plan** option ($\$125/\text{mo} \times 4 = \500 total).
- One-time payment (or the 4-pay plan), truly lifetime access, no recurring membership.
- **90-day refund window** (not the standard 30) since this is the largest/most expensive package.
- Payment-plan risk: if a monthly installment fails 3x, Teachable auto-unenrolls the student. If they're upset about losing access despite partial payment, refund whatever they've already paid.
- **Standing loyalty discount policy** (not tied to any specific promo window — always in effect):
 - If a student has spent **more than \$200 total** on FFC (Monthly Membership payments and/or old Level Courses combined): create a personalized coupon for **\$650 off** ($\$1,000 - \$650 = \350 total).
 - If they've spent **less than \$200 total**: create a personalized coupon for **\$550 off** ($\$1,000 - \$550 = \450 total — this is also the standard/default Lifetime promo price).
 - Use \$200 in **total historical spend**, not time-in-membership, since a student could rejoin repeatedly at the \$5 intro rate for months without crossing \$200.
- Zapier *should* auto-cancel their Monthly Membership payments when they upgrade to Lifetime, but this is known to sometimes fail — manually verify/cancel the old Monthly subscription (Procedure A) if it wasn't caught.

Speak With Vanessa AI

Separate product/app — unlimited AI conversation-practice partner with instant vocabulary/grammar/pronunciation feedback and a personal vocabulary tracker.

- Plans: monthly (\$25/mo), 6-month, or annual (~\$300/year — same effective rate as \$25/mo). Coupon codes apply equally across **all three tiers** — marketing may push one tier over another, but there's no actual restriction on which tier a coupon can be used with.
- Trial periods: annual/6-month plans get a 7-day trial; monthly plan gets a 3-day trial.
- **Three coupon codes:**
 1. **THANKS** — for students who have **completed the 30 Day Speaking Challenge (SC2)**. Gives **40% off every month, ongoing** (not just a first-month discount).
 2. **VANESSA** — for **Fearless Fluency Club students only**. Gives the **first month free** so they can try it out; after that, full price (\$25/mo or the equivalent on whichever tier they chose).
 3. **SAVE70** — **70% off**, but this is a **time-limited promotional code**, not a standing offer. Currently scheduled to run in **September** and will not be available outside that window (may be reopened for a future promo period, but only during a specific announced window each time). **⚠ Do not surface this code / mention this promo to a student outside its active promotional period** — treat it as "off" by default and only "on" during the announced window. If in doubt about whether it's currently active, check the SEVV Promo information folder / Monday.com promo calendar before mentioning it.
- **"30 Days, 30 Conversations" bonus challenge** (daily conversation topic prompt emails) — eligibility is more limited than it might seem:
 - **Not available to Fearless Fluency Club students** — they should not see this as something they have access to.
 - **Currently not available to 30 Day Speaking Challenge (SC2) purchasers either** (as of now — this could change).
 - Available to people who purchase Vanessa AI "randomly" — i.e. outside of a promo, e.g. discovering it via a YouTube video.
 - **During the SAVE70 promotional period**, this bonus challenge **will** be actively promoted/pushed to everyone who buys during that window.
 - **⚠ Known edge case during the SAVE70 promo:** FFC-tagged students **can** normally receive the "30 Days, 30 Conversations" promo emails just fine. The actual exception is a **separate, temporary tag** applied during a new FFC student's onboarding period — **"No Promos: In FFC 3.0 Automation"** — which suppresses *all* other marketing emails (not just this one) so brand-new students stay focused on their FFC onboarding sequence. A student with that onboarding tag won't receive the Vanessa AI promo emails at all. The only way they'd end up buying Vanessa AI during the promo anyway is by finding it directly (e.g. via

YouTube) rather than through the email push — expected to be rare. If it comes up, handle it case-by-case rather than as a standard playbook entry — tag Vanessa on the email.

- **Cancellation** (the ONE thing to handle directly): student self-serves via Profile → "Subscription Management" — send them this simple instruction plus the reference screenshot if needed. This is the only Vanessa AI support task admin staff should answer themselves.
- **⚠️ Support routing — strict rule: for anything else** — "I can't log in," "I forgot my password," any app bug, any question beyond how to cancel — **forward it to Peter at hi@yourteacher.ai** rather than trying to answer it. Don't attempt to troubleshoot Vanessa AI app issues internally; the goal is to actually use Peter's paid support service rather than duplicate it in-house.

Challenges (separate, smaller products — can be purchased standalone or as bundles)

30 Day Listening Challenge

⚠️ No longer sold individually. Individual packs (Pack 1–5) are not a standalone purchase anymore. The main way a student ends up with one now is as an **order bump** on other products' checkout pages — **Pack 5** is the one most commonly picked up this way, with **Pack 4** occasionally as well. There's no dedicated checkout link for buying an individual pack directly.

- **150 Day Listening Challenge Bundle** = all 5 packs together, but this is **only offered twice a year** (not a standing/evergreen sale). **Checkout link:** <http://www.speakenglishwithvanessa.com/150-lc-promo> (only relevant/live during those two windows). Normally \$500, promo pricing **\$199** (60% off). 4-month payment plan option available (\$60/mo × 4 = \$240).
 - If a student already owns 1–2 individual packs, there's no extra stacking discount (packs are already just \$99 each on their own).
 - If a student already owns 3 packs, it's better to sell the 2 remaining individually via a personalized coupon (~\$60 each) rather than the bundle.
 - **Admin note on refunds:** removing someone from this bundle requires removing them from **each** challenge's Kit sequence individually (challenge 2, 3, 4, 5, plus any upsell sequence) — there's no single bulk-remove button; do each one, refresh, then move to the next.
- **"How do I start getting the daily emails?" requests:** when a student buys Pack 5 (or 4) as an order bump, they receive a welcome email thanking them for joining the listening challenge as a bonus course — that email includes a "Receive the emails now" click option rather than starting automatically. Some don't click it, then later email asking how to start. This is uncommon (most students just click the option themselves), but when it happens: admin needs to add the correct Kit tag — exact format is **"LC5:**

Receive emails" (or "**LC1: Receive emails**," "**LC2: Receive emails**," etc., matching whichever pack they bought) — and the daily emails will start automatically once that tag is applied. No other action needed.

60 Day Word-Boosting Challenge (WBC)

Checkout link: <http://www.speakenglishwithvanessa.com/60wb-promo>

- Normally \$200; promo **\$99** (one-time) or 3 monthly installments of \$35.
- Vocabulary + phrasal-verb focused, daily story + video + quiz format.
- Refund/removal: unenroll from Teachable **and** remove the Kit tag **and** remove from the "WBC Daily Email" sequence specifically.
- Completion certificate available on request (student emails describing their experience) — Canva template, not an official TESOL certificate. After sending, label the email "Certificate" (**Admin Archive/Certificate** in Gmail) as a record it was sent — same process applies to the 30 Day Listening Challenge packs. ⚠️ Not confirmed whether this also applies to the 90 Day English Challenge — worth double-checking.
- 📋 **Planned, not live yet:** Vanessa AI may be added as an option bundled with WBC, so students could practice the challenge's material conversationally within the app. Not built or announced yet — don't mention this to students until it's actually live. Update this note once it launches.

90 Day English Challenge

- Normally \$300; promo **\$135** (one-time) or 3 monthly installments of \$47.
- Combines: Phrasal Verb (PV) challenge + Vocabulary (VC) challenge + Pack 4 ("Life") of the 30 Day Listening Challenge (LC4), running sequentially (~30 days each).
- If someone already owns one of the 3 component challenges before buying the bundle, refund/unenroll them from the redundant one, or manually enroll them in a different LC pack they don't yet have (preference order: LC5, then LC3, then LC2, then LC1).
- **Admin note:** removing someone requires going into the Kit **automation** itself (not just deleting a tag), searching for their email among subscribers, and clicking "remove from automation" — no bulk option. Refund removal specifically requires removing from all 3 sequences (PV Daily Emails Promo, VC Daily Emails Promo, LC4 Daily Emails).
- 📋 **Planned, not live yet:** Vanessa AI may be added as an option bundled with this challenge, so students could practice the material conversationally within the app. Not built or announced yet — don't mention this to students until it's actually live. Update this note once it launches.

30 Day Speaking Challenge ("SC2" internally — customer-facing name: "30 Day Speaking Routine")

Naming note, similar to the Listening Challenges: internally this is "SC2," but talk to students using the theme name, "**30 Day Speaking Routine.**" **SC1 vs. SC2 — important distinction:**

plain "SC" (no number) internally usually refers to the **original** Speaking Challenge (SC1), which launched at the end of 2022/beginning of 2023 and has been sold a handful of times since. **SC2 is the current/new version**, which launched in **July 2026** — this is the one described below and the one Vanessa AI is integrated into. There's no customer-facing theme name for SC1 yet; a theme + bundle for it may be created in the future, but that's undecided. ⚠️ **Not evergreen:** SC2 only runs during specific live windows (a promo period or an active course run) — not open for enrollment all the time like the Fearless Fluency Club or the Listening Challenges. Expect emails about it to be rare outside of those windows.

- **Historical note, not needed for day-to-day admin purposes:** the first two times SC1 ran (back in 2022/2023), speaking feedback was given by **live teachers** listening to student-recorded audio — not Vanessa AI. SC2's marketing specifically promotes Vanessa AI-powered feedback, so a student asking "is this real teachers giving feedback every day?" is very unlikely, but if it comes up: yes, in the past (SC1's early runs) that was the case, but the current course (SC2) uses Vanessa AI instead, which was the better choice to keep the price affordable while offering **unlimited** speaking feedback (vs. limiting it to ~1 minute/day with live teachers).
- Normally \$70; promo **\$55**.
- Daily video lesson + daily speaking question answered via the Vanessa AI app (included free with purchase — limited to 7 interactions/day without a full Vanessa AI account, unlimited with one).
- Standard refund policy applies — same as everywhere else, no exception for this product/promo.
- "Too expensive, can I get it cheaper" during this promo → default to no reply at all (per admin note), unless it's a known/long-time student or an unusually thoughtful email — then a brief no-discount reply is fine.
- Kit tag for people who want to stay on the newsletter but opt out of *just* Speaking Challenge promo emails: **"Doesn't want SC promo"** (different from a full unsubscribe).

English Worksheet Library

- Library of 250+ downloadable worksheets (each tied to a YouTube video).
- Normally \$99; promo **\$27** (72% off).
- Lifetime access, download anytime.

Cross-product policies

- **Testimonials:** if a student's email includes a usable testimonial (positive, specific, emotional, shows a transformation) that could work on a sales page/email, apply the **Admin Archive/Testimonial** Gmail label after replying (don't delete it). Commonly comes up in the certificate-request emails (where students describe their course

experience) but can apply to any email. Currently applied manually by Ailsa — Claude can apply this label too when it fits.

- **Refund default:** "30 days, no questions asked" is the stated policy nearly everywhere, but in practice the team **honors refund requests well past 30 days** for genuine cases. Exception: FFC Lifetime gets 90 days by design.
- **Promo rotation:** SEWV runs a different course/discount promo roughly monthly (tracked on Monday.com's "Important Links → Promotions" board). Each promo gets its own FAQ doc in the **SEWV Promo information** folder with current copy-paste answers — always check there first for anything price- or promo-specific before answering from memory or from this file.
